

# What is StickyDrive?

StickyDrive is software that can turn any USB Flash Drive into an interactive marketing piece! Contained inside the flash drive, the StickyDrive software presents your user with a branded menu screen that displays your logo and company message instead of just an imprint on the drive.

## Features:

- Integrated Search Tool
- Music, photos and documents
- Custom Web Links
- Can be updated after distribution
- Completely customizable skin i.e. - graphic appearance

## Benefits:

- Keep products and service offerings current
- Get maximum branding impressions
- Interactive marketing platform that can be updated at any time
- Higher ROI on flash drive give-aways

## Custom Options:

- Your logo
- Your color scheme
- Up to 3 unique web links of your choice
- Pre-loaded music or photos of your choice
- Unique imagery and headline/tagline on the main menu (i.e.-product photo, coupon, etc.)
