

# IClick 3.0

Known as the MVP, the iClick USB drive is a workhorse of-a-different color (15 to be exact, with the option of silver, matte black, gold or white swivels). Among the improvements, USB 3.0 features a new transfer mode that can transfer data at a rate much faster than standard USB 2.0 drives. USB 3.0 connectors are easily distinguishable from their 2.0 counterparts by the blue color-coding of the ports. To realize the benefits of USB 3.0, you must have 3.0 ports on the device you're plugging into. USB 3.0 drives are backwards compatible to 2.0 ports, however only 2.0 transfer speeds can be achieved.

**ReadyShip Memory Sizes:** 8GB

**Memory Sizes:** 8GB - 128GB

**Decoration Options:** Up to a 3-color Imprint, Full Color Process, Laser Engraving

**Material:** Plastic, Steel

**Weight:** 0.55 oz

**Dimensions:** 2.25 in x 0.8 in x 0.4 in
